▪ SUMMARY

I have completed Bachelor of Computer Application as my bachelor's degree with a strong passion for web development and programming. I have no prior experience in the field but eager to launch my career in the information technology and software/web development industry. I am seeking employment in a company that will allow me to expand my skill set by learning new technologies while contributing to the organization's success. My educational background has equipped me with proficiency in various technical skills such as HTML, CSS, jQuery, Bootstrap, PHP, MySQL. Additionally, I have also knowledge of C, C++, Core Java, Python, etc. Moreover, I am a quick learner who can easily grasp new concepts and ideas and can adapt any environment swiftly. I am enthusiastic about utilizing my skills and contributing to the growth and success of a company.

▪ PROJECT

1. ACADEMIC PROJECT: Beauty Parlour Management System (Jan 2023 – Mar 2023)

Project link: bpms.developersaurabh.xyz Admin & User Id- 7488944009 Password- 1234

The system was developed with the intention of enhancing the management of a network-based system for the beauty parlour. As an admin, one could keep track of customer records, customer appointments, send instant approvals or rejections, manage enquiries, update user appointments, and print invoices for appointments. The system allows users to visit and get information about the beauty parlour and their services, team, contact, sign up, login, book appointments, and manage their appointments, profile, and password. The system was developed using HTML, CSS, Bootstrap, jQuery, PHP, and MySQL.

2. PERSONAL PROJECT: My Personal Website *developersaurabh.xyz* (May 2023)

Here you can find a comprehensive representation of my professional identity. This website is a reflection of my experiences, skills, and achievements, featuring several pages that allow you to explore my background, expertise and capabilities. The system was developed using HTML, CSS, Bootstrap, jQuery, and PHP.
